

## Makerspace Materials Price List

The St. Charles Parish Library Makerspace and its tools are available for use by members of the St. Charles Parish community. Library programs held in the Makerspace are always free for participants, including materials and supplies used during the program. Free materials, including scrap, partially used, and donated supplies, may be available for individual use. New materials provided by the library are available for purchase in limited quantities. For certain tools, only library-provided materials may be used to ensure safety and quality.
